About the Aliso Viejo Branch of the Boys & Girls Club

Proceeds from this year's golf tournament will be used to fill a growing need of the B&G Club in Aliso Viejo-programs for our TEENS. This year's theme, "Eight-TEEN Holes of Golf" spearheads our effort to raise funds to launch a Keystone Leadership Teen Program. This program focuses on leadership, education and career development, economic/political awareness and social recreation-elements that are crucial to channeling the high energy of teens in a positive direction.

Whether you golf or not, we invite you to join us this year and become a stakeholder in this great effort to institute a program that places an emphasis on building character, good citizenship and developing the social emotional and vocational abilities of our teens. We appreciate your support and look forward to seeing you this summer.
